MixOil®

Plant-based growth promoter

MixOil contains a synergistic combination of phytomolecules.

- ✓ Improves performance and fertility
- ✓ Supports gut health
- ✓ Promotes an adequate immune response

Available for the following animal category:

POULTRY, SWINE AND RUMINANTS

Available in
**POWDER &
LIQUID**

DOSAGE
MixOil Powder

All species
200-1000g/ton
of feed

DOSAGE
MixOil Liquid

All species
100-1000ml/ton of drinking
water or feed

MixOil[®]++

Plant-based growth promoter

MixOil⁺⁺ contains a synergistic combination of phytomolecules, organic acids and derivatives of short-medium chain fatty acids.

- ✓ Improves growth and performance
- ✓ Supports immune system response
- ✓ Promotes microbiota and gut health

Available for the following animal category:

POULTRY, SWINE AND RUMINANTS

Available in
**POWDER &
LIQUID**

DOSAGE
MixOil⁺⁺ Powder

Poultry
100-300g/ton of feed

Swine
150-800g/ton of feed

Ruminants
2-5g/head/day

DOSAGE
MixOil⁺⁺ Liquid

Poultry & Swine
100-800ml/ton of drinking water

Ruminants:
Dairy Cows and Beef Cattle
1-5ml/day
Calves
1-3ml in milk/day

MixOil[®] ++ Aqua

Plant-based growth promoter

MixOil ++ Aqua contains a synergistic combination of phytomolecules, organic acids and derivatives of short-medium chain fatty acids.

- ✓ Optimizes the economic return in shrimp farming
- ✓ Exerts antioxidant and anti-inflammatory activity
- ✓ Supports immune system response and reduces mortality
- ✓ Reduces ammonia emissions in water

Available for the following animal category:

**FISH AND
SHRIMP**

Available in
**POWDER &
LIQUID**

DOSAGE
MixOil++ Aqua Powder

All farming period
200-500g/ton of feed

Challenge
500-800g/ton of feed

DOSAGE
MixOil++ Aqua Liquid

All farming period
100-400ml/ton of feed

AirOil

Balsamic action of a phytomolecules blend

AirOil contains a synergistic combination of selected phytomolecules supporting the health of upper and lower respiratory tract.

- ✓ Maximizes the immuno-response
- ✓ Exerts mucolytic and expectorant effects
- ✓ Suitable for use during respiratory tract diseases

Available for the following animal category:

POULTRY, SWINE AND RUMINANTS

Available in
**POWDER &
LIQUID**

DOSAGE
AirOil Powder

Poultry
150-500g/ton of feed

Swine
150-500g/ton of feed

Ruminants
2-5g/head/day

DOSAGE
AirOil Liquid

Poultry & Swine: 300-700 ml/
ton of drinking water for 3-5 days

Nebulization
30ml/l weekly

Ruminants
1-5ml/head/day

CoxxOil

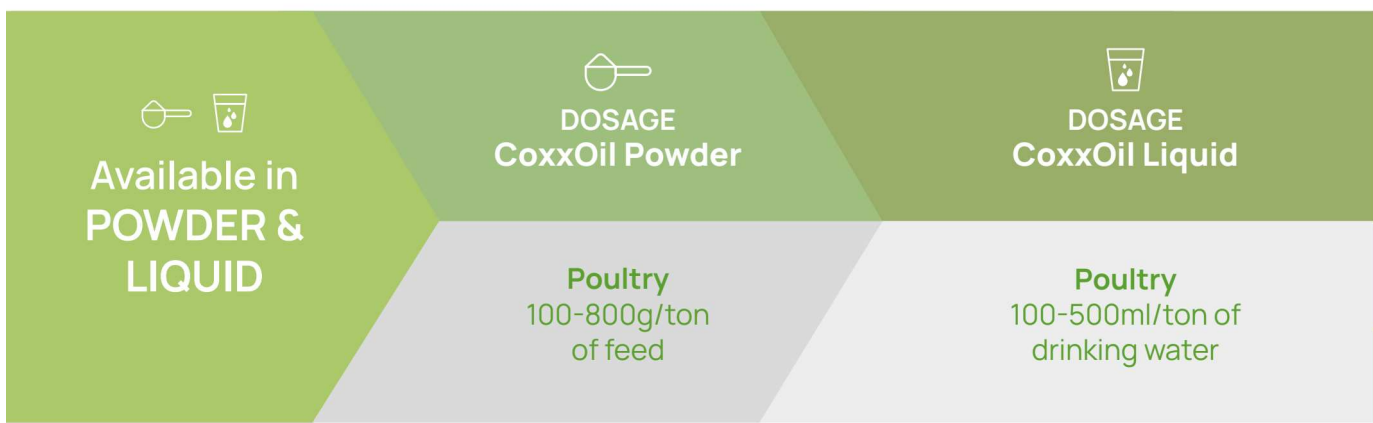

Plant-based interferent in the life cycle of Coccidia

CoxxOil contains a selected combination of phytomolecules that break the life cycle of Coccidia thanks to a particular synergy among them.

- ✓ Supports performance in case of presence of Coccidia
- ✓ Stimulates enzymatic-digestive functions
- ✓ Enhances intestinal barrier integrity
- ✓ Supports immune system response

Available for the following animal category:

POULTRY

ImmunOil

Immune system booster

ImmunOil contains a synergistic combination of selected phytomolecules supporting the strengthening of the immune system.

- ✓ Modulates the immuno-response
- ✓ Stimulates the development of the immune system
- ✓ Induces a strong trophic effect on gut mucosa

Available for the following animal category:

**POULTRY AND
SWINE**

LIQUID

Available
only in
LIQUID

DOSAGE
ImmunOil Liquid

Poultry & Swine
300-700ml/ton of
drinking water

4PowerX

The strong destroyer of the bacterial defense system

4PowerX contains a blend of selected phytomolecules that work in perfect synergy enhancing the antibiotic activity.

- ✓ Usable with antibiotics
- ✓ Makes bacteria more sensitive to antibiotics
- ✓ Inhibits biofilm formation

Available for the following animal category:
**POULTRY, SWINE,
RUMINANTS, AQUACULTURE**

Available in POWDER & LIQUID	 DOSAGE 4PowerX Powder	 DOSAGE 4PowerX Liquid
	Poultry, Swine, Aquaculture 300-700g/ton of feed	Poultry, Swine, Aquaculture 300-700ml/ton of drinking water of feed
	Ruminants 3-10g/head/day	Ruminants 3-10ml/head/day

WLF

Gut health promoter

WLF contains calcium formate, citric acid combined with a selected blend of phytomolecules protected in a lipid net-shape matrix with a “stop & go” release of the active ingredients in the GIT.

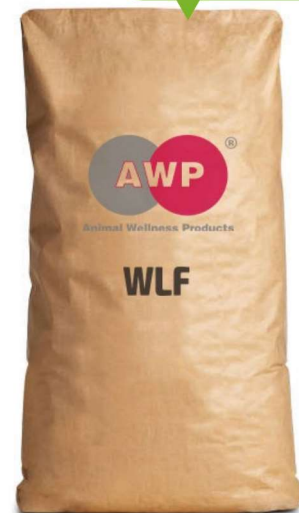

- ✓ Provides formic acid in undissociated form (“stop & go release”)
- ✓ Exerts a strong activity on pathogenic bacteria
- ✓ Stimulates immune system response

Available for the following animal category:

**POULTRY AND
SWINE**

POWDER

Available
only in
POWDER

DOSAGE
WLF Powder

Poultry
1-5kg/ton of feed

Swine
1-7kg/ton of feed

ToxinFibre

Toxin binder, safer food

ToxinFibre contains botanic purified and soluble polyphenols with low molecular weight combined with a selected blend of phytomolecules.

- ✓ As feed preservative helps to obtain safer food by binding toxins in the feed
- ✓ Inside the gut binds endo and exotoxins of bacterial and fungal origin
- ✓ The digestibility and absorption of nutrients is not compromised

Available for the following animal category:

**POULTRY, SWINE,
AQUACULTURE AND RUMINANTS**

POWDER

Available
only in
POWDER

25kg
paper-plastic
bag

DOSAGE
ToxinFibre Powder

As feed preservative
700g/ton

Poultry, Swine, Aquaculture
200-1.000g/ton of feed

Ruminants
5-60g/head/day

PrENat

Strong antioxidants blend

PreNat contains a selected blend of antioxidants as polyphenols, carotenoids, tocopherol and special phytomolecules to ensure a strong antioxidant power.

- ✓ As feed preservative helps to obtain safer food by reducing ROS and other reactive species
- ✓ Exerts primary and secondary antioxidant activity
- ✓ Protects against lipid oxidation

Feed and raw materials for
ALL ANIMAL SPECIES

Available in
**POWDER &
LIQUID**

**DOSAGE
PreNat**

As feed preservative
400-700 ppm

As fish oil preservative
2kg/ton of feed

FORLIFE™

Colostrum for calves

Forlife is a complete nourishment formulated to ensure an optimum supply of essential nutritional substances for the health of calves in the first few hours after birth.

- ✓ Provides essential proteins and high IgG level for the immune system development
- ✓ Collected and processed within 12 hours of the first milking after birth

Available for the following animal category:

CALVES

Available in **CAPSULE**

Sole source of colostrum

1 capsule at birth +
1 capsule after 24 hours

Integrated with mother's colostrum

1 capsule with colostrum

CAPSULES

► Sealed packaging for an excellent preservation of 6 capsules of 1.2g.

DERMOSAN

Soothing and healing foam

Dermosan foam contains a selected blend of active ingredients that supports that skin microbiota with soothing properties.

- ✓ Thick dense foam
- ✓ Restores physiological condition of mucous membrane and tissues

Available for the following animal category:

RUMINANTS

Available in **FOAM**

Packaging

200ml spray-bottle with soft PVC tube
1 box contains 4 spray bottle + 10 tube

Accessory

62cm catheters in a 30 units pack

FOAM

► Shake the can well before use. Thoroughly clean the area to be treated and delicately apply the foam.

MUST Gel

Soothing and sanitising cream

Must Gel is a cream rich in essential oils, MCFA, plant extracts, propolis and ozonized oil.

- ✓ Exerts sanitising and soothing effect
- ✓ Restores skin physiological condition
- ✓ Aids the wound healing process

Available in GEL

Lactating cows

Use 1 or 2 syringes on the appropriate hindquarter after milking. Stimulate the distribution of the product with a delicate massage. Assess whether further treatment is required after the next milking.

Dry cows

Use 1 syringe externally for each quarter.

Available for the following animal category:
RUMINANTS

SYRINGES
of 10 ml

► **Must Gel is not a substitute for targeted antibiotic treatments or therapies.**

MUST II™

Phytomolecules to decrease inflammation

Must II contains a blend of extremely bioavailable trace elements (MHA) combined with MixOil that regulates the intestinal microbioma.

- ✓ Promotes microbiota and gut health
- ✓ Exerts a strong anti-inflammatory action

Available in BOTTLES WITH DISPENSING

Lactating cows

First 3 days 60ml/head/day
Following 3 days 40ml/head/day

Dry cows

1 week before birth
40ml/head/day for 5 days

Available for the following animal category:
RUMINANTS

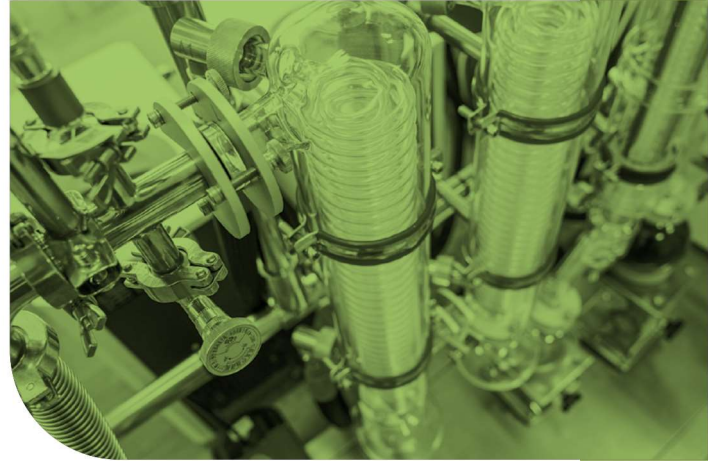

BOTTLE

Phytomix 2.0™

Phytomix 2.0 is our special technology to mix phytomolecules and preserve them in **VACUUM PACKAGING** with aluminium bags.

This production process ensures a better preservation of the products maintaining their efficacy also in critical storage conditions.

Most of our products remain stable at temperatures above 90°C.
